Voice of the Patient: Stories of Perinatal Loss And The Lessons They Teach Us

Thursday October 8, 2020

12:00 pm – 1:30 pm Central Time (please adjust for your location)

Virtual Presentation

Registration: \$10

Registration link: <https://tinyurl.com/y2skj6w5>

CEUs included and available for nursing and social work. Other professional discipline credit may be available upon request.

Target Audience: Health professionals caring for perinatal loss patients and their families including nurses, physicians, social workers, case managers, imaging technologists, and pastoral care, etc.

Objectives:

At the conclusion of the workshop, participants will be able to:

- Describe first-hand accounts of perinatal loss and the impact of care protocols
- Discuss perinatal loss experience with families
- Examine current care protocols through the eyes of bereaved families

Faculty: Lindsey Wimmer, RN, MSN, PHN, CPNP, CPLC

Jennifer Kouri, RN, CPLC
